

## Notice of and Consent for School Health-Related Services

Consent given through this form is effective during the current school year unless revoked earlier.

In accordance with law, the District will provide parents with written notice of each school-based health-related service offered at the campus their child attends. These routine services promote student safety, wellness, and readiness to learn. The services may be provided by qualified school staff, including nurses and athletic trainers. This consent does not take the place of an individualized health plan, 504 plan, or other legally required document.

A parent has the right to withhold consent for or decline any health-related service.

### **Routine Health-Related Services Provided at Your Child's Campus:**

- First aid and injury evaluation
- Administration of over-the-counter medications recorded in accordance with law
- Administration of prescription medications in accordance with law
- Monitoring of chronic health conditions (e.g., asthma, diabetes)
- Vision, hearing, and scoliosis screenings
- Under the influence assessment
- Lice screening
- Acanthosis screening
- Support during illness or physical symptoms at school
- Coordination of health services
- Heat illness prevention and injury support for student athletes

Medications will only be administered once approved and documented on the Mabank Health Services Medication Administration Form.

Any additional health-related services that the campus may believe are necessary and appropriate will necessitate separate written consent and parental involvement, unless during an emergency or as allowed by law.

Forms, screeners, and other documents that are routinely used in the process of providing health-related services to your child are available for review at MISD Health Services Department page at [www.mabankisd.net/page/health.home](http://www.mabankisd.net/page/health.home) .

If you choose to consent (opt-in) to campus-based health-related services and your child becomes ill or sustains an injury during the school day, the campus nurse will be permitted to assess and provide care to your student in a timely manner and return them to learning, if applicable or excuse an absence home if necessary

If consent is withheld (opt out) of campus-based health-related services and your child becomes ill or sustains an injury during the school day, the campus nurse WILL NOT be

permitted to assess or provide care---except in cases of a life-threatening emergency. If the nurse is NOT permitted to provide care for your student for suspected illness, a parent/guardian will be contacted, and the student must be picked up in a timely manner. The student will then require a written statement from a licensed healthcare provider confirming that the student is not ill or contagious in prior to return as well as to excuse the absence.

**Parent Consent for Health-Related Services:**

*(Please print.)*

Student's name: \_\_\_\_\_

Current grade level: \_\_\_\_\_

Campus: \_\_\_\_\_

- I consent to my child receiving routine school-based health-related services during the 2025–2026 school year. I understand this consent may be revoked at any time in writing.
- I do NOT consent to my child receiving routine school-based health-related services during the 2025-2026 at school. I understand that I will be contacted in emergencies or when health concerns arise.

Parent's signature: \_\_\_\_\_

Date: \_\_\_\_\_
