

Important Technology Information

The Mabank ISD Technology Department will connect you to the Internet/Email/Skyward/network electronic communications system. Your new email address will consist of the following: *First initial *Middle initial *Full last name

*For Example: "Elvis Aaron Presley" address will be: eapresley@mabankisd.net

** Your temporary password will be: **Panther#1**

You will not be able to change your password until you get on the Mabank ISD network, at your assigned campus. When you get to your classroom, log on to the computer using the temporary password and then do CTRL-ALT-DEL, then select change password.
(** **We highly suggest you change it ASAP**)

**This will also be your login to connect to your google drive, to access shared files, etc. Do not use your personal gmail, it gets really confusing and there are some rights issues. If you have any technology/gradebook/curriculum apps/etc.questions, please submit a technology request, via <https://www.mabankisd.net/page/tech.home>
We will be glad to assist you....
